Дополнительная информация

Обо мне

I am a web developer and I have Back-End as well as Front-End experience. But I'm getting deeper and deeper into the Front-End. I also enjoy playing sports, music and living a healthy lifestyle. I always try to improve my skills and get better and i like to work in a team also :) . Currently i am learning Python. It will be a big plus if you have project on Python, React, Node

Technical skills

• Development experience with version control systems GitHub/GitLab/Bitbucket

- Knowledge and skills of cross-browser layout
- Experience in developing applications in Vuejs 2/3, Nuxt, React, HTML5 / CSS3
- Experience in developing applications on VUEX / Redux
- Experience in JavaScript and JavaScript frameworks development (Node js, Vue.js, React js)
- Adaptive + response Landing websites / SPA/ Multipage websites
- Using mobile first style css coding;
